FOR IMMEDIATE RELEASE
November 23, 2015

CTI NAMES NEW MICHAEL WEIS, PROJECT MANAGER FOR SAFETY/SECURITY CONSULTING AT CHICAGO AIRPORTS

Gaithersburg, MD, November 23, 2015– Counter Technology, Inc. (dba CTI Consulting) is pleased to announce the hiring of Michael Weis as Project Manager for its Safety and Security Consulting contract with the Chicago Department of Aviation. Michael brings the insight of over two decades of leadership and management experience in both the military and private sectors, most recently as Branch Manager for Securitas, Inc. He holds a Masters of Business from Southern Illinois University, and has previously worked for CTI as a security consultant and Access Control Coordinator for Midway Airport.

CTI President Ray Garza states, “Mike has been associated with our Chicago projects since 2005, and his professionalism and character made him a trusted member of our team. He was consistently recognized by the client as an important asset to the project. We welcome him back into the CTI family, and look forward to his leadership.”

Michael will also serve as Access Control Coordinator at O’Hare International Airport.

CTI is a prominent security consulting firm specializing in security assessments, security and emergency plans, training and tabletop exercises, and design of integrated security systems. Clients include the aviation industry, major corporations, and federal/state/local governments. CTI has been a security consultant to the Chicago Department of Aviation since 1987.
